Threat Assessment

¶7. (S//NF) Embassy Nairobi RSO: Numerous credible intelligence reports clearly indicate that the East Africa al-Qa'ida and affiliated Somali extremists remain operationally active in Mogadishu. These elements have frequently used suicide bombings, well planned ambushes and roadside improvised explosive devices in attacks against ENDF, AMISOM forces and TFG leaders. Members of the Jihadi militant group, al-Shabaab, are actively engaged in conducting myriad attacks inside Mogadishu, to include targeted assassinations of high profile individuals. The Addis Ababa DATT and Nairobi Marine Corps Attache would present extremely High Value Targets for the East Africa al-Qa'ida and affiliated Somali extremists. Given the opportunity, these entities would expend considerable effort and resources to conduct attacks against any visiting USG personnel despite the promise of protection by the ENDF.

¶8. (S/NF) The Somali TFG, the African Union Mission in Somalia, and the ENDF cannot be expected to provide sufficient protection and appropriate security for this visit as evidenced by the constant attacks they themselves endure in Mogadishu, which are unpredictable, uncounterable and continue unabated. Furthermore, any aircraft arriving and departing from Mogadishu is vulnerable to attack by MANPADS, and/or mortars when landing and taking off as has happened in the past, and there is no viable method of deterring these types of threats. Based upon all currently available information from relevant security and intelligence sources, both within and outside of the U.S. Mission and USG, RSO is of the opinion that the dangerous, volatile and uncertain security situation in Mogadishu does not support the visit of the DATT at this time.

Security Plan

¶9. (S/NF) The Ugandan military component of AMISOM is responsible for all security measures and escorts, including emergency contingencies and evacuation plans. All movement outside the military encampment at the airport will be in armored personnel carriers. COL Anderson and LtCol Schade will not/not have weapons but will be wearing body armor and steel pot (all kevlar). The delegation will confine itself to those areas controlled by security forces and take well protected routes from the airport to meeting venues.

Action Request

¶10. (C) Action Request: Embassy Nairobi requests M approval of this proposed travel to Somalia as soon as possible. Once approved, the final travel itinerary will be forwarded to AF and DS.
